REMINDER to people travelling from Dunedin to Mosgiel for meetings or services that they need to be aware that roadworks are taking place over the next three months. The transport authorities are suggesting it might be necessary to allow a further 15-20 minutes for the journey. Not sure if this applies to Sundays but important that those leading the services who travel from Dunedin, not get caught out.

MOSGIEL METHODIST WOMEN'S FELLOWSHIP Tuesday 30th January, 1:30 pm, in the hall. Please note as the first Tuesday in February is Waitangi Day. We will launch our Special Project.

STORY FROM THE MISSION

Science Kids: Whilst the new and exciting Science Centre at the museum is being developed the children have been doing some further exploring of the museum; looking at the birds and their habitats, the fossils of under-water creatures and the firm favourite the Egyptian mummy!

The kids from Pine Hill had a fantastic time at school, the task for the session was to capture and identify insects and bugs, and examine them to see what identifying characteristics about each bug they could see.

The kids were really involved and excited, some of them even hoping to capture a spider so they could show the others how brave they are! Overall a highly successful session, with one of the kids in particular who wanted to know all about entomology, saying that he'd love to become one in future!
